Education

Ontario Tech University

Bachelor of Software Engineering and Management

Sep. 2022 - April 2028

Experience

Program Delivery Group Internship - Elexicon

Aug 2026 - Sep. 2027

55 Taunton Rd E, Ajax, ON L1T 3V3

- Supported tracking of capital construction project progress, budgets, and schedules while maintaining project documentation.
- Prepared project status reports, monitored departmental KPIs, and assisted with annual capital project planning.
- Collaborated with engineering technicians and construction supervisors, contributing to process improvements using Microsoft Visio.

Freelance Web Developer - Askari Rabbit Farms (Client Project)

July 2026

HTML, CSS, JavaScript, REST APIs

- Designed and built a fully responsive multilingual marketing website with custom RTL support and an automated translation system.
- Integrated currency conversion APIs, implemented a serverless contact form, and deployed the site as a static production website.

Program Instructor - Engineering Outreach OTU

Aug 2022

2000 Simcoe St N, Oshawa, ON L1G 0C5

- Facilitated STEM programs for diverse youth groups while promoting teamwork, engagement, and safety.
- Supervised participants, resolved conflicts, and supported the planning and delivery of educational activities.

Stage Coordinator - StartYPA

Aug 2018

3600 Kingston Rd, Scarborough, ON M1M 1R9

- Coordinated rehearsals and managed stage operations, including cues, props, costumes, and logistics.
- Maintained administrative records and ensured smooth execution of live youth arts performances.

Technical Projects

Eunoia | Next.js, React, Tailwind CSS, Google Gemini AI

Dec 2025 - Feb 2026

- Built an AI-powered journaling platform using Next.js and Google Gemini AI to analyze emotions, generate personalized reflections, and track mood trends.
- Implemented voice-enabled journaling with a responsive Tailwind CSS interface and deployed the application for public use. [Live!](#)

ResumeTruth AI - Next.js, TypeScript, Tailwind CSS, Groq API, pdf-lib

Feb 2026

- Developed an AI resume analysis platform that compares resumes against job descriptions, identifies skill gaps, and generates hiring probability scores.
- Added AI-powered resume rewrites, cover letter generation, annotated reviews, PDF processing, and deployed the application publicly. [Live!](#)

Personal Portfolio - Next.js, TypeScript, Three.js, Tailwind CSS, Framer Motion

Jan 2026 - Feb 2026

- Designed and developed an interactive portfolio featuring real-time 3D particle effects, video backgrounds, and smooth scroll animations.
- Optimized performance while creating a fully responsive and publicly deployed experience. [Live!](#)

SpeciSnap - *React, Tailwind CSS, Python, FastAPI, Google Gemini Vision AI*

Feb 2026

- Developed a Progressive Web App that identifies plants and animals from images using Google Gemini AI.
- Integrated FastAPI, confidence scoring, and Wikipedia enrichment to provide detailed species information; deployed publicly. [Live!](#)

Nebula Plan - *React, Node.js, MySQL*

Sep. 2024 - Dec 2024

- Built a full-stack platform for managing event planning, budgeting, venues, and schedules using React, Node.js, and MySQL.
- Developed RESTful APIs and enabled real-time updates for event and financial management.

CI/CD Pipeline for Binary Calculator - *Google Cloud Platform, Jenkins, GitHub, Maven, Helm, Kubernetes*

- Designed and deployed an automated CI/CD pipeline for automated building, testing, and deployment workflows to improve release efficiency and reliability.

Machine Learning Evaluation System - *Java, Python, NumPy, Matplotlib, Maven, JUnit*

- Developed a machine learning evaluation framework to calculate regression and classification metrics including MSE, F1-score, AUC, and confusion matrices.
- Used NumPy, Matplotlib, Maven, and JUnit for data analysis, visualization, automated testing, and project management.

Technical Skills

Programming Languages: Python, Java, C++, JavaScript, TypeScript, HTML, CSS, SQL, Bash

Frameworks & Libraries: React, Next.js, Node.js, Django, FastAPI, Tailwind CSS, Bootstrap, Three.js, Framer Motion, NumPy, Matplotlib, JUnit, Maven, Google Gemini AI, Groq API, pdf-lib

Tools, Databases & Cloud: Git, GitHub, Jenkins, Kubernetes, Helm, Google Cloud Platform (GCP), MySQL, PostgreSQL, MongoDB, Ubuntu, Vite, REST APIs, Microsoft Office Suite (Excel, Word, PowerPoint)

Soft Skills: Analytical Thinking, Problem Solving, Attention to Detail, Organization, Adaptability, Fast Learning, Leadership, Communication, Cross-functional Collaboration, Teamwork, Time Management, Reliability

Languages: English, Urdu, Hindi
